The Tiger: As one of the most dynamic signs in the Chinese zodiac, Tigers are fascinating, commanding, and exasperating. They are patient but short-tempered, calm but rebellious, petty but noble, fearsome but affectionate, free spirits but fiercely territorial. With their many & various personality traits, Tigers are also - not surprisingly - noted for a marked reluctance to make up their minds. What makes them magnetic and commanding figures is the absolute loyalty and affection they show for those they love. With a natural air of authority, Tigers easily earn the respect and admiration of those who love them in return.
